Q Shelter details economic and social legacy framework for Brisbane 2032 Games, calling for world best in social inclusion legacy

Dear colleagues

I am writing to let you know that Q Shelter has just released a report today called '[Go for Gold: a social inclusion legacy for the 2032 Olympic and Paralympic Games](#)'.

The report covers five themes with over 40 proposed solutions to improve the legacy from Brisbane 2032:

- Housing
- Homelessness
- Economic participation
- Governance
- Monitoring and evaluation.

We intend for the report to inform our ongoing advocacy to ensure Brisbane 2032 does not cause adverse impacts on vulnerable Queenslanders. The report proposes innovative solutions to housing supply, homelessness responses and opportunities for economic participation.

We are providing a special briefing about the report to our members and stakeholders, webinar details below. We genuinely hope this report can inform your own input to Government about how the Games can leave a genuine legacy for social inclusion. As a follow up, Q Shelter will later engage stakeholders in planning sessions to test ideas and populate a more detailed plan.

Go for Gold briefing: a report by Q Shelter on a social inclusion legacy from Brisbane 2032

Tuesday 26 July 2022

2.00pm-2.45pm

Zoom Webinar
